PROFESSIONAL SUMMARY

Computer Science graduate with strong interest in Web Development and Software Development. Skilled in developing responsive websites using HTML, CSS, and JavaScript, and experienced in building dynamic web applications such as a Library Management System. Familiar with WordPress website development and customization as well as Android application development using Android Studio. Passionate about learning new technologies and building efficient, user-friendly software solutions.

TECHNICAL SKILLS

Programming Languages	HTML, CSS, JavaScript
Web Development	Responsive Web Design, Front-End Development
Content Management System	WordPress (Theme customization, website setup, content management)
Development Tools	Visual Studio Code, Android Studio, Windsurf
Database Technologies	MySQL, SQLite
Other Tools	Microsoft Word, Excel, Canva, GitHub (basic)

PROJECTS

Portfolio Website (Personal Website)

Technologies: HTML, CSS, JavaScript

- Designed and developed a personal portfolio website to showcase projects and skills.
- Created responsive UI for mobile and desktop users.
- Included sections like About, Projects, and Contact Form.
- Focused on clean design and user-friendly navigation.

LiteraHub – Library Management System (Web Application)

Technologies: HTML, CSS, JavaScript, PHP, MySQL

- Developed a web-based system to manage library books, users, and issuing records.
- Designed responsive front-end pages including homepage, admin login, and registration interface.
- Integrated database connectivity for efficient data storage and retrieval.
- Implemented basic admin functionalities for managing books and users.

PDFToolify (PDF Converter Web Application)

Technologies: HTML, CSS, JavaScript

- Developed a web-based PDF utility tool to provide users with an easy and accessible document conversion interface.
- Designed a clean and responsive front-end layout for uploading and managing PDF-related tasks.
- Implemented user-friendly sections for file handling and document conversion features.
- Focused on creating a simple, professional, and interactive interface for smooth user experience.

BiteCraft (Recipe Web Application)

Tools: HTML, CSS, JavaScript

- Developed an interactive recipe web application to provide users with a structured and accessible collection of categorized meals.
- Designed a clean and fully responsive front-end interface showcasing recipes with images, ingredients, and detailed instructions.
- Implemented dynamic features such as category-based filtering and search functionality to improve navigation and usability.
- Focused on delivering a smooth, engaging, and user-friendly experience through modern UI design principles.

WishCraft – Birthday Wishes Android Application

Tools: Android Studio, Kotlin

- Developed an Android application to generate personalized birthday wishes videos with custom user input.
- Implemented multiple activities and RecyclerView for smooth image selection and navigation.
- Integrated video generation with background music to enhance user experience and visual appeal.
- Designed an interactive and user-friendly interface for creating and sharing customized birthday content.

SmartCalc – Calculator Android Application

Tools: Android Studio, Kotlin

- Developed a functional Android calculator application to perform basic arithmetic operations efficiently.
- Designed a clean and user-friendly interface for smooth numerical input and calculation handling.
- Implemented logical operations including addition, subtraction, multiplication, and division.
- Focused on improving usability and accuracy through structured layout and responsive interaction design.

EXPERIENCE

Frontend Developer — Remote

Sep 2025 — Present

- Developed and maintained responsive user interfaces using HTML, CSS, and JavaScript
- Collaborated remotely with team members to implement UI components and improve user experience
- Converted design concepts into functional web pages with clean and structured code
- Ensured cross-browser compatibility and mobile responsiveness
- Participated in debugging and optimizing front-end performance

EDUCATION

Associate Degree Program in Computer Science (ADP-CS)

2023 — 2025

University of Central Punjab — Lahore, Pakistan

Intermediate (I.C.S)

2021 — 2023

Government Associate College for Women — Kot Radha Kishan, Pakistan
